

REALTECH – the NetWeaver Company

SAP NetWeaver Intensive Trainings

From Introduction to Certification

Talk to us about staff qualification and training – for a successful SAP NetWeaver future!

Optimized training programs are closely aligned with customer's needs while putting particular emphasis on time and cost control.

In the SAP NetWeaver training of its own consultants, REALTECH has always focused its attention on these requirements. In a consultancy like REALTECH, time is money. At the same time, we expect our staff to excel in every aspect of its work.

In order to fully meet these demands, we created our own optimized SAP NetWeaver training program.

REALTECH's SAP NetWeaver Training is now at your fingertips!

Our training courses are exclusively conducted by REALTECH consultants with specialized instructor training. The training units take a modular approach allowing us to address your individual needs. Training is carried out within your SAP NetWeaver environment giving you practical relevance to the tasks ahead of you and your staff.

Courses are subdivided into three qualification levels and follow the procedures established within the REALTECH Four Phase Model for SAP NetWeaver implementation.

By now, 80% of our consultants are trained for deployment in SAP NetWeaver projects and 20% of the consultants are SAP NetWeaver certified. The respective staff members passed certification exams at first go.

Let us help you define your individual training program.

Experience shows that our program leads to a significant reduction in costs.

Benefit from...

- **INDIVIDUALITY** Tailored to your SAP NetWeaver project!
- **EFFECTIVENESS** Aligned with your individual needs!
- **FLEXIBILITY** We work on your schedule!
- **EXPERIENCE** Training is conducted by our highly experienced staff!

We also recommend REALTECH's SAP NetWeaver Readiness Check. REALTECH specifically developed this check to provide fast and uncomplicated expertise determining your SAP NetWeaver readiness. What needs to be done and is it the right strategy at this point and time? Find out with REALTECH!
